Natural Beauty Begins
With QP Optima

QP Optima

FOR FACIAL TREATMENT

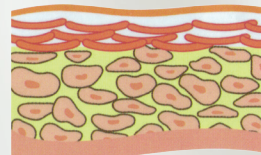

Natural Beauty Begins With QP Optima

QP Optima is energized mineral water that is scientifically enhanced through quantum physics. This makes the treated water molecules suitable to be quickly absorbed into facial skin cells, keeping them moist and pH balanced.

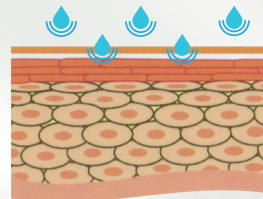

Ever thought why your face can look dull? That's because about 99% of the problems are due to the lack of sufficient moisture. QP Optima offers moisture replacement that is a million times that of ordinary water making your skin visibly smoother and supple.

Before application of
QP Optima Facial Mist

Dry and damaged skin

After application of
QP Optima Facial Mist

Moisturised healthy skin

Rejuvenating, Rehydrating & Refreshing

- Regulates optimal pH value of skin, and rejuvenates skin cells
- Penetrates deep into skin cells and provides long lasting rehydration
- Enhances radiance & texture of skin cells
- Reduces & prevents pimples & acne
- Helps repair wrinkles and fine lines
- Refreshes and nourishes, looking youthful all day
- QP Optima is available in a convenient size mist dispenser spray
